## Professional Summary

Recent B.Tech Computer Science graduate from IITM College of Engineering, New Delhi, with strong problem-solving skills, a growth mindset, and a passion for software development. Currently undergoing training in Python Full Stack Development and Data Analytics at PySpiders, Pune, with a focus on building practical, industry-relevant skills. Solved 1,000+ DSA problems, demonstrating strong logical thinking, algorithmic problem-solving, and programming fundamentals. Seeking an opportunity as a Python Developer to apply programming and problem-solving skills, contribute to real-world projects, and grow into a skilled software engineer.

## Education

## Experience

|                                                     |                             |
|-----------------------------------------------------|-----------------------------|
| <b>Infosys Springboard</b><br><i>Project Intern</i> | <b>Sept 2024 – Dec 2024</b> |
|-----------------------------------------------------|-----------------------------|

- Led a remote team of 6 members to design and develop an edtech software solution from scratch.
- Collaborated in an Agile environment through daily stand-ups, sprint planning, and peer code reviews.
- Applied software engineering best practices under mentor guidance in a real-world development setup.
- **Technologies:** Java, Spring Boot, Maven, MySQL, Postman

## Projects

### CLI-Based Bank Management System – Java

- Developed a CLI-based banking system to manage customer accounts, deposits, withdrawals, and balance inquiries.
- Implemented Object-Oriented Programming concepts and input validation for reliable account management.

### CLI-Based Hotel Management System – C++

- Developed a CLI-based hotel management system supporting room booking, cancellation, customer details, and room availability.
- Applied Object-Oriented Programming and file handling concepts for persistent data management.

### Core Banking Software – Frontend

- Developed a responsive banking frontend using HTML, CSS, and JavaScript for account management, transactions, fund transfers, and customer details.
- Designed user-friendly interfaces and implemented interactive functionality using JavaScript.

## Academic Achievements & Co-Curricular Activities

- B.Tech CSE branch topper at college.
- Awarded a full scholarship in Class XI and Class XII.
- Achieved Rank 1 in the district in the Class X Board Examinations.
- Won a Gold Medal in a Chess Tournament.
- Solved 1,000+ Data Structures and Algorithms problems.

## Certifications

- **Master Data Structures and Algorithms through Java** – Coding Blocks, Noida
- **Web Development and Agile Methodologies** – Infosys Springboard
- **Soft Skills & Corporate Readiness Training** – TCS iON
